

2022 Ohio Senior Olympics

Archery Results

These are the results from the Ohio Senior Olympics 2022 Archery Event. This document includes the scores for all competitors. This also shows the qualifying status for each competitor.

Ohio Senior Olympics calculates your age group for competition by your age on December 31, 2022. You may be in a different age group than you think you should be based on your age now. If your age group changes before the end of the year, you are in that older age group for OSO purposes. Example- you are 54 now, but will be 55 before the end of the year, for OSO you are shooting in the 55-59 age group.

Qualifying can happen three different ways. If there is a qualifying method listed in the "qualify reason" column below, you have qualified for the 2023 National Senior Games.

First, second, third and fourth place finishers in each age group qualify for national competition. Under the "qualifying reason" column, that's shown as "Place."

Second, out of state competitors don't take qualifying spots away from Ohioans. We always qualify four Ohioans, so if an out of state person was ahead of you, you may qualify by "qualifying down". That's noted by QD in the "qualify reason" column.

Third, if you don't qualify by place or qualifying down, but you meet the minimum performance standard for your shooting style, you can qualify. That's shown by MPS in the "qualify reason" column. For this competition, that only impacts male competitors in the compound release shooting style.

What happens now? These results will be submitted to the National Senior Games Association. When registration opens for the 2023 National Senior Games in Pittsburgh, qualified athletes will be notified that they are able to register. The schedule for the National Senior Games is not yet posted, but it will be later this year. Registration will not open until the schedule has been posted. Visit the NSGA web site, nsga.com, to learn more.
